Dominican Republic Highlights

- DR has 800 miles of coastline and is the eastern 2/3 of the island of Hispaniola which it shares with Haiti
- The 2nd largest island in the Caribbean, covering 18,815 square miles (Cuba is the largest)
- Hispaniola is one of two Caribbean islands that are shared by two countries (Saint Martin/Sint Maarten being the other).
- DR has both the highest point and lowest point in the region. Pico Duarte rises 10,130 feet. Lake Enriquillo is 130 feet below sea level
- Population of over 10m

AMBER COVE

DOMINICAN REPUBLIC

Amber Cove – What's in the Name?

- The 62-mile Puerto Plata Coastline was renamed the “Amber Coast” by a Presidential Decree in the 1970's- This is noted in CCL's Press Release
- The Amber Mines in the region are some of the richest in the world
- Dominican Amber is 90 percent clearer than others and has 10 times more insects than Baltic Amber
- Jurassic Park was partially filmed and loosely based upon the unique features found in Amber stones from Puerto Plata region
